

Today marks Legislative Day 71 and as such, we are on the home stretch now. One of the latest developments that created a buzz this week was the amendment to HB 1320 to fund the Theodore Roosevelt Presidential Library. The amendment was added to the bill by the Senate Energy and Natural Resources Committee and passed, as amended, on the Senate floor by a vote of 34-13. Members of the House have expressed concern over the bill and whether it is constitutional. The ND Constitution requires that bill amendments be relevant or germane to the original intent of the bill. HB 1320 was “hog housed” in the Senate to include the library funding. The bill as originally introduced related to the Red River valley water supply project contract terms and elimination of voter approval requirements. The fate of the bill will likely be determined in the House next week.

### Key Issues

Several additional education-related bills were signed by the Governor this past week. Those bills included: **HB 1082** (relates to prohibition on aiding and abetting sexual abuse and seeks to align state code with federal regulations implemented by ESSA); **SB 2110** (requires ITD oversee the cyber security strategy of political subdivisions, including school districts); **SB 2181** (amends definition of “bullying” under NDCC ch. 15.1.-19 to include cyberbullying); **SB 2281** (relates to limitations on permissible use of force on a child); and **SB 2340** (relates to protection of records shared for emergency purposes and emergency planning and response).

**SB 2034** includes several sections generally relating to the possession of a firearm or dangerous weapon, including on school property. The bill was amended in the House to, among other things, clarify that the superintendent of public instruction, in consultation with the department of emergency services and the attorney general, must adopt rules to administer the newly created “armed first responder” section of chapter 62.1-02 and develop criteria for approval of plans under that section. The bill was also amended to add a new subsection to section 62.1-02-05 providing that this section does not prevent a school board from authorizing the use of a less than lethal weapon as part of the security plan for a school. The bill, as amended, passed on the House floor by a vote of 82-6. The Senate concurred with the House amendments by a vote of 45-1 and the bill has now been sent on to the Governor.

**SB 2265** is the education funding and “catch-all” bill. In its current form, the bill establishes the policy for implementing the K-12 funding formula, establishes an appropriation for rapid enrollment grants, and provides for music education grants. The bill is currently in conference committee and will likely take until close to the end of session for final passage. This week, **HB 1346** (changes required instructional days to hours and relates to weather emergencies) and **HB 1249** (relates to youth behavioral health services and training of school staff) came out of conference committee and then failed on the floor of the House. The subject matter of both of these bills will likely be included in amendments to **SB 2265** in conference committee. The NDSBA team will continue to closely watch **SB 2265** as we near the end of session.

Several other bills made their way out of conference committee this week. **HB 1067** relates to municipal bid requirements and certificates of indebtedness. The House acceded to the Senate amendments on the bill and the conference committee report was adopted on the floor. **HB 1454** increases the bid threshold for school boards and adds another exception to the bidding requirements for cooperative purchases made through joint powers agreements. The House acceded to the Senate amendments on the bill and the conference committee report was adopted on the floor. **HB 1287** would allow the licensing of individuals as teachers by ESPB if the individual meets certain criteria and completes an alternative teaching certification program. The House acceded to the Senate amendments on the bill and the conference committee report was adopted on the floor. **HB 1531** would allow an individual who does not have a teaching license to teach noncore subjects, except special education, upon meeting certain criteria. The House acceded to the Senate amendments on the bill and the conference committee report was adopted on the floor. **SB 2040** relates to the treatment of property owned by a political subdivision when calculating protests against the formation of a special improvement district. The Senate acceded to the House amendments and the conference committee report was adopted on the floor. All of these bills will now move on to the Governor for consideration.

**SB 2013** is the DPI and K-12 funding formula appropriation bill. The bill passed the House this week by a vote of 76-14. The Senate refused to concur with the House amendments and a conference committee was appointed.

Finally, NDSBA continues to closely follow the progress of **SB 2172**, which was amended by the House to resurrect **HB 1206**, which was previously killed in the Senate. **SB 2172** was amended to create a new class of conceal and carry permit that would allow permit holders to carry a concealed firearm in public schools and other public gathering places. **SB 2172** is currently in conference committee and NDSBA is hopeful that the bill will be further amended by the conference committee to remove the controversial class 1 exempt permit language or to exclude public schools from the exemption. Please continue to watch for action alert emails from NDSBA providing updates on this bill and asking you to contact your representatives to vote “no” on this dangerous bill.
